

GUARANTEED ANALYSIS

Total Nitrogen (N)15%
 15% Urea Nitrogen
 Sulfur (S)3%
 3% Combined Sulfur
 Iron (Fe).....6%

Plant Nutrient Sources:
 low biuret urea and ferrous sulfate heptahydrate

CAUTION KEEP OUT OF REACH OF CHILDREN

PRODUCT SPECIFICATIONS

Weight per gallon 11.6 lbs./gal
 Freezing Temperature 25°F

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin, and clothing. Avoid breathing spray mist. In case of contact with eyes, flush eyes with plenty of water and get medical attention. In case of contact with skin, wash thoroughly with soap and water.

PRODUCT INFORMATION

LONG IRON is most effective during active growth and less effective when turf is dormant or suffering from stress. **LONG IRON**'s formulation provides safe and compatible mixing ability with amine based herbicides.

LONG IRON will mix with most commonly used herbicides, pesticides, fertilizers, and fungicides. Tank mixture compatibilities may vary because changes in formulations, water sources, temperature, and spray volumes. Always conduct a jar test for compatibility before tank mixing.

RECOMMENDED RATES

TURF

SPRAY VOLUMES FORTURFGRASS: Spray volumes can range from 0.5-4 gallons per 1,000 sq. ft. for adequate coverage. For **LONG IRON** tank mixtures containing amine formulations of herbicides, spray volumes greater than 2 gallons per 1,000 sq. ft. are recommended.

Bahiagrass, Bentgrass, Centipedegrass, Tall Fescue, St. Augustinegrass, and Zoysiagrass: Apply 2-8 fl. oz. of **LONG IRON** per 1,000 sq. ft. with sufficient water for good coverage. Three to five applications per growing season usually produce the best results. For bentgrass, do not exceed 5 fl. oz. of **LONG IRON**/1,000 sq. ft. per application.

When temperatures can exceed 90° F, do not apply more than 3 fl. oz. of **LONG IRON** per 1,000 sq. ft. to centipedegrass if applied with other fertilizers, pesticides, or specialty products.

Bermudagrass: Apply 4-10 fl. oz. **LONG IRON** per 1,000 sq. ft. with sufficient water for good coverage. Three to five applications per growing season usually produce the best results.

Bluegrass, perennial ryegrass and other northern grasses: Apply 2-8 fl. oz. of **LONG IRON** per 1,000 sq. ft. with sufficient water for good coverage. Three to five applications per growing season usually produce the best results.

ORNAMENTALS

| Type of Ornamental | Amounts of Long Iron required for: | |
|--|--------------------------------------|---------------|
| | 1 Gallon | 100 Gallons |
| Herbaceous Plants | 2 teaspoons | 1.0 quart |
| Shrubs | 2 fl. oz. (4 tablespoons) | 1 1/2 gallons |
| Trees | 1 1/4 fl. oz. (2 1/2 tablespoons) | 1.0 gallon |
| Equal measures: 1 fl. oz. = 6 teaspoons = 2 tablespoons 1 gallon = 128 fl. oz. = 4 quarts | | |

PRECAUTIONS

Shake well before each use. Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation. Keep container capped when not in use. Do not contaminate feed, seed, or water supplies.

FIRST AID

In Case of Contact: Harmful if swallowed. Avoid contact with eyes, flush eyes with plenty of water and seek medical attention immediately.

Skin: wash thoroughly with soap and water.

CONTAINER DISPOSAL

Triple rinse container and offer for recycling or dispose in accordance with federal state and local authorities.

CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal laws and that they conform to the label description. Any non-conformance must be reported in writing to Seller within Thirty(30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery. The seller's liability under this warranty is in lieu of all other warranties, expressed or implied, including warranties of merchantability and fitness for a particular purpose. There are no warranties which extend beyond this statement.
